

Dockets Management Branch (HFA-305)
Docket No. 98-N-1265
Food and Drug Administration
5600 Fishers Lane Room 1061
Rockville, MD 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

Comments: A few years ago, I was diagnosed with cyst on spinal cord
the pain was so bad that I would have to discontinue work...the operation
gave 50% chance I'd never walk again. But thanks to being able to get
a percutaneous gel, I can continue to work with minimum pain.
College pharmacy is the only place we can obtain this wonderful help.
Even my husband's company--Albertsons as big as it is does not make
this wonderful help..see letter enclosed.

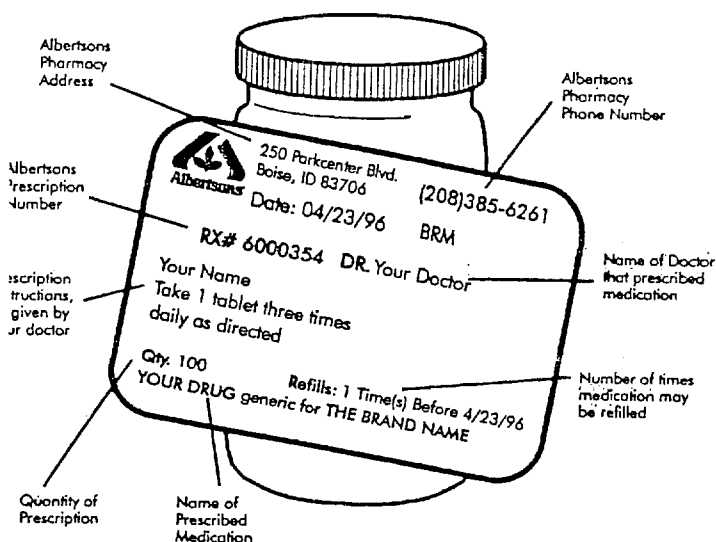

Please do not condemn me to a life of constant debilitating pain by
making it impossible for me to obtain this precious help from outside
state shipment. Consider how many other people like this their may be.
